NOTES:

1. CORPORATE AND GROUP INFORMATION

ArtGo Holdings Limited (the “Company”) is a limited liability company incorporated in the Cayman Islands. The registered office address of the Company is P.O. Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands. The Company’s principal place of business in Hong Kong is located at Unit 1302, 13/F., Golden Centre, 188 Des Voeux Road Central, Hong Kong.

During the year, the Company and its subsidiaries (collectively referred to as the “Group”) were principally engaged in the business of mining, processing, sale of marble stones, the trading of commodities and cargo handling, warehousing, and logistics.

In the opinion of the Directors, the Company does not have an immediate holding company or ultimate holding company, nor there is in a position to exercise significant influence over the Company.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”), which comprise standards and interpretations approved by the International Accounting Standards Board (the “IASB”), International Accounting Standards (“IASs”) and Standing Interpretations Committee interpretations approved by the International Accounting Standards Committee that remain in effect and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention. Disposal groups held for sale are stated at the lower of their carrying amounts and fair values less costs to sell as further explained in note 21. These financial statements are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

The unaudited financial information relating to the year ended 31 December 2019 and the financial information relating to the year ended 31 December 2018 included in this preliminary announcement of 2019 annual results do not constitute the Company’s statutory annual consolidated financial statements for those years but, in respect of the year ended 31 December 2018, is derived from those consolidated financial statements. Further information relating to these statutory consolidated financial statements required to be disclosed in accordance with section 436 of the Companies Ordinance is as follows:

The consolidated financial statements for the year ended 31 December 2019 have yet to be reported on by the Company’s auditor and will be delivered to the Registrar of Companies of Hong Kong in due course. The Company has delivered the consolidated financial statements for the year ended 31 December 2018 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Companies Ordinance.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following new and revised IFRSs for the first time for the current year's financial statements.

IFRS 16	<i>Leases</i>
Amendments to IFRS 9	<i>Prepayment Features with Negative Compensation</i>
Amendments to IAS 19	<i>Plan Amendment, Curtailment or Settlement</i>
Amendments to IAS 28	<i>Long-term Interests in Associates and Joint Ventures</i>
IFRIC 23	<i>Uncertainty over Income Tax Treatments</i>
<i>Annual Improvements 2015–2017 Cycle</i>	Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23

IFRS 16 replaces IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC 15 *Operating Leases — Incentives and* SIC 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model to recognise and measure right-of-use assets and lease liabilities, except for certain recognition exemptions. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors continue to classify leases as either operating or finance leases using similar principles as in IAS 17.

The Group has adopted IFRS 16 using the modified retrospective method with the date of initial application of 1 January 2019. Under this method, the standard has been applied retrospectively with the cumulative effect of initial adoption recognised as an adjustment to the opening balance of retained earnings at 1 January 2019, and the comparative information for 2018 was not restated and continued to be reported under IAS 17 and related interpretations.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

New definition of a lease

Under IFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed. Therefore, the definition of a lease under IFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

As a lessee — Leases previously classified as operating leases

Nature of the effect of adoption of IFRS 16

The Group has lease contracts for office premises and land use right. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under IFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low value assets (elected on a lease by lease basis) and leases with a lease term of 12 months or less (“short-term lease”) (elected by class of underlying asset). Instead of recognising rental expenses under operating leases on a straight-line basis over the lease term commencing from 1 January 2019, the Group recognises depreciation (and impairment, if any) of the right-of-use assets and interest accrued on the outstanding lease liabilities (as finance costs).

Impacts on transition

Lease liabilities at 1 January 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019 and presented separately in the statement of financial position. The right-of-use assets were measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before 1 January 2019.

All these assets were assessed for any impairment based on IAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position.

For the leasehold land and buildings (that were held to earn rental income and/or for capital appreciation) previously included in investment properties and measured at cost, the Group has continued to include them as investment properties at 1 January 2019. They continue to be measured at cost applying IAS 40.

The Group has used the following elective practical expedients when applying IFRS 16 at 1 January 2019:

- Applied the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application
- Applied a single discount rate to a portfolio of leases with reasonably similar characteristics when measuring the lease liabilities at 1 January 2019

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

Financial impact at 1 January 2019

The impacts arising from the adoption of IFRS 16 as at 1 January 2019 are as follows:

	Increase/ (decrease) <i>RMB'000</i> (Unaudited)
Assets	
Increase in right-of-use assets	370,098
Decrease in prepaid land lease payments	(358,956)
Decrease in prepayments, deposit and other receivables	(9,169)
Increase in total assets	1,973
Liabilities	
Increase in lease liabilities	1,973
Increase in total liabilities	1,973
Impact on accumulated losses	–
The lease liabilities as at 1 January 2019 reconciled to the operating lease commitments as at 31 December 2018 are as follows:	
	<i>RMB'000</i> (Unaudited)
Operating lease commitments as at 31 December 2018	2,025
Weighted average incremental borrowing rate as at 1 January 2019	5.94%
Discounted operating lease commitments at 1 January 2019	1,973
Lease liabilities as at 1 January 2019	1,973

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSs

The Group has not applied the following new and revised IFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to IFRS 3	<i>Definition of a Business</i> ¹
Amendments to IFRS 9, IAS 39 and IFRS 7	<i>Interest Rate Benchmark Reform</i> ¹
Amendments to IFRS 10 and IAS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> ³
Amendments to IAS 1	<i>Classification of Liabilities as Current or Non-current</i> ²
IFRS 17	<i>Insurance Contracts</i> ²
Amendments to IAS 1 and IAS 8	<i>Definition of Material</i> ¹

¹ Effective for annual periods beginning on or after 1 January 2020

² Effective for annual periods beginning on or after 1 January 2023

³ No mandatory effective date yet determined but available for adoption

Further information about those IFRSs that are expected to be applicable to the Group is described below.

Amendments to IFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group expects to adopt the amendments prospectively from 1 January 2020. Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to IFRS 9, IAS 39 and IFRS 7 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments are effective for annual periods beginning on or after 1 January 2020. Early application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to IFRS 10 and IAS 28 address an inconsistency between the requirements in IFRS 10 and in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to IFRS 10 and IAS 28 was removed by the IASB in December 2015 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSs (continued)

Amendments to IAS 1 and IAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. The Group expects to adopt the amendments prospectively from 1 January 2020. The amendments are not expected to have any significant impact on the Group's financial statements.

3. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has two (2018: three) reportable operating segments as follows:

- (a) the marble products segment produces marble products and calcium carbonate products mainly for further processing or trading; and
- (b) the commodity trading segment conducts the trading business of commodities.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except that interest income, non-lease-related finance costs as well as head office and corporate expenses are excluded from such measurement. Following a change in the composition of the Group's reporting segments, the Group has restated the operating segment information for the year ended 31 December 2018.

Segment assets exclude deferred tax assets, pledged deposits, cash and cash equivalents and other unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude tax payable, deferred tax liabilities and other unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

8. INCOME TAX

Pursuant to the rules and regulations of the Cayman Islands and BVI, the Group is not subject to any income tax in the Cayman Islands and BVI.

No provision for Hong Kong profits tax has been made as the Group had no taxable profits derived from or earned in Hong Kong during the year.

Jiangxi Keyue Technology Co., Ltd (“Jiangxi Keyue”) is entitled to a preferential PRC CIT rate of 15% as it has been accredited as “High and New Technology Enterprise” from 13 August 2018 to 13 August 2021. Except for Jiangxi Keyue, pursuant to the income tax rules and regulations in the PRC, the subsidiaries located in Mainland China are liable for PRC CIT at a rate of 25% on the assessable profits generated during the year.

The major components of income tax expense were as follows:

	2019 RMB'000 (Unaudited)	2018 <i>RMB'000</i> (Audited)
Current — Mainland China

9. DIVIDENDS

At a meeting of the Board of Directors held on 30 March 2020, the Directors resolved not to declare any dividend to shareholders for the year ended 31 December 2019 (2018: Nil).

10. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

The calculation of basic loss per share for the year ended 31 December 2019 is based on the loss for the year attributable to ordinary equity holders of the Company, and the weighted average number of ordinary shares of 2,899,487,229 (2018: 2,304,045,205) in issue during the year.

No adjustment has been made to the basic loss per share amounts presented for the years ended 31 December 2019 and 2018 in respect of a dilution as the impact of the share options outstanding had an anti-dilutive effect on the loss per share amounts presented.

The Group's investment properties consist of eight (2018: five) commercial properties in Shanghai, where five investment properties are leased to third parties under operating leases, and the remaining three are held for capital appreciation.

As at 31 December 2019, the total fair value of the investment properties was estimated to be approximately RMB300,423,000 (2018: RMB102,800,000). The valuation was performed by Sichuan Hengtai Real Estate Valuation Co., Ltd., an independent professionally qualified valuer. Selection criteria of the external valuer include market knowledge, reputation, independence and whether professional standards are maintained. The valuation is determined by discounting a projected cash flow series associated with the properties using risk-adjusted discount rates. The valuation takes into account expected market rental growth and the occupancy rate of the respective properties. The discount rates used have been adjusted for the quality and location of the buildings and the tenant credit quality. The fair value of the investment properties measured at the end of the reporting period is categorised into Level 3 valuations: Fair value measured using significant unobservable inputs, as defined in IFRS 13 *Fair Value Measurement*.

As at 31 December 2019, the Group's investment properties with a carrying amount of RMB204,775,000 (2018: Nil) were pledged to secure certain other borrowings granted to the Group (*note 24(a)*).

As at 31 December 2019, the Group's investment properties with a carrying amount of RMB65,924,000 were sealed up due to litigation for breach of contract (*note 30*).

13. LEASES

The Group as a lessee

The Group has lease contracts for leased land and offices and land use right used in its operations. Lump sum payments were made upfront to acquire the leased land from the owners with lease periods of 15 to 43 years, and no ongoing payments will be made under the terms of these land leases. Leases of offices generally have lease terms between 1 and 3 years. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group.

(b) **Impairment**

In accordance with the Group's accounting policies, each asset or cash-generating unit ("CGU") is evaluated annually at 31 December to determine whether there are any indications of impairment. If any such indications of impairment exist, a formal estimate of the recoverable amount is performed.

In assessing whether an impairment is required, the carrying value of the asset or CGU is compared with its recoverable amount. The recoverable amount is the higher of the CGU's fair value less costs of disposal and value in use ("VIU"). No impairment loss was recognised for the year ended 31 December 2019 (2018: RMB517,954,000).

15. GOODWILL (continued)

Impairment testing of goodwill

Goodwill acquired through business combination is allocated to the Jiangxi Keyue cash-generating unit (“CGU”) for impairment testing.

The recoverable amount of the Jiangxi Keyue CGU has been determined based on a value in use calculation using cash flow projections based on financial budgets covering a ten-year period approved by senior management. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

Budgeted gross margins — The basis used to determine the value assigned to the budgeted gross margins is the expected gross margins in the future years, increased for expected efficiency improvements, and expected market development.

Discount rates — The discount rates used are before tax and reflect specific risks relating to the relevant units. The discount rate applied to the cash flow projection is 13%.

Growth rate — The growth rate used to extrapolate the cash flows beyond the ten-year period is 3%, which is based on the estimated growth rate of the business unit, taking into account the industry growth rate, past experience and the medium or long term growth target.

The values assigned to the key assumption on discount rates are consistent with external information sources.

The Group's trading terms with its customers are mainly on credit, except for new and minor customers, where payment in advance is normally required. The credit period is generally one month to six months, extending up to nine months for major customers. 5% of the sales of marble slabs are withheld by customers as retention money with respective due dates usually not more than one year after the delivery of goods.

Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and overdue balances are reviewed regularly by senior management. In view of the fact that the Group's trade receivables relate to a limited number of major customers, there is a concentration of credit risk. The Group maintains strict control over the settlements of its outstanding receivables and has a credit control department to minimise credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing and unsecured.

An ageing analysis of the trade receivables as at the end of the reporting periods, based on the invoice date and net of loss allowance, is as follows:

	2019 <i>RMB'000</i> (Unaudited)	2018 <i>RMB'000</i> (Audited)
Within 1 month	73,624	269,069
1 to 3 months	36,716	4,461
3 to 6 months	5,681	3,133
6 to 12 months	56,908	–
	<u>172,929</u>	<u>276,663</u>

18. TRADE RECEIVABLES (continued)

The movements in the loss allowance for impairment of trade receivables are as follows:

	2019 RMB'000 (Unaudited)	2018 <i>RMB'000</i> (Audited)
At beginning of year	26,919	17,252
Impairment losses, net (<i>note 7</i>)	6,725	9,667
At end of year	33,644	26,919

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by customer type and rating). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than one year and are not subject to enforcement activity.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

As at 31 December 2019 (Unaudited)

	Current	Past due		Total
		Less than 1 year	Over 1 year	
Expected credit loss rate	2.15%	14.86%	100%

Notes:

- (a) The balances represent prepayments made to villagers for the use of parcels of land for mining activities at the marble mines located in Yongfeng County, Jiangxi Province, the PRC (“Yongfeng Mine”) and in Lichuan County, Hubei Province, the PRC (“Lichuan Mine”). As a result of the initial application of IFRS 16, lease of parcels of land amounted to RMB9,169,000 previously included in “Prepayments, other receivables and other assets” was adjusted to the right-of-use assets recognised at 1 January 2019 (note 13).
- (b) The balance represents prepayments made to local authorities for occupation of the cultivated land at Yongfeng Mine. The prepayments will be charged to profit or loss on a straight-line method over the terms of the mining right.
- (c) An impairment loss of RMB2,327,000 (2018: RMB881,000) for financial assets in prepayments, other receivables and other assets was recognised during the year.

Where applicable, an impairment analysis is performed at each reporting date by considering expected credit losses, which are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. The loss rate applied as at 31 December 2019 ranged from 0.5% to 10% (2018: 0.5% to 10%).

- (d) The balance represents cash consideration receivables from the disposal of subsidiaries.

20. RESTRICTED DEPOSITS AND CASH AND BANK BALANCES

The RMB is not freely convertible into other currencies. However, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Time deposits are made for varying periods of between three months and one year, and earn interest at the respective deposit rates. The bank balances and time deposits are deposited with creditworthy banks with no recent history of default.

21. DISCONTINUED OPERATION

The Disposal Group is mainly engaged in warehousing and logistics. Pursuant to the investment committee resolution dated 12 December 2019, the Group has decided to dispose of the Disposal Group because it plans to focus its resources on its mining operations. Management has been in active discussions with the potential buyers for the proposed sale since December 2019. As at 31 December 2019, final negotiation for the sale were in progress and the Disposal Group was classified as a disposal group held for sale. With the Disposal Group being classified as a discontinued operation, the warehousing logistics business are no longer included in note 3 for operating segment information.

Notes:

- (a) On 20 June 2019, 23 August 2019 and 29 August 2019, the Group allotted and issued an aggregate of 119,248,035, 63,131,313 and 164,156,830 new ordinary shares of the Company as the consideration for the acquisitions of the entire interests in Genpex Investment Limited (note 27), Kalong Holdings Limited (note 28), and Good Benefit Holdings Limited (note 27) respectively. RMB3,101,000 was credited to the share capital account of the Company. Particulars of the above were set out in the Company's announcements dated 20 June 2019, 23 August 2019 and 29 August 2019, respectively.
- (b) The subscription rights attaching to 58,250,000 share options were exercised at the subscription price of HK\$0.399 per share (note 26), resulting in the issue of 58,250,000 shares for a total cash consideration, before expenses of RMB20,904,000. An amount of RMB523,000 was transferred from the share option reserve to share capital upon the exercise of the share options.

26. SHARE OPTION SCHEMES

On 9 December 2013, the Company has conditionally adopted a share option scheme (the “Pre-IPO Share Option Scheme”) for the purpose of providing incentives and rewards to full-time or part-time employees, executives, officers or Directors (including independent non-executive directors). The Pre-IPO Share Option Scheme will remain in force for 42 months from the date of listing unless otherwise cancelled or amended. The final batch of 1,066,669 share options under the Pre-IPO Share Option Scheme expired without being exercised on 30 June 2018.

The Company also operated a new share option scheme (the “Share Option Scheme”) which has been conditionally adopted by the written resolutions of the shareholders of the Company on 9 December 2013. The Share Option Scheme is a share incentive scheme and is established to recognise and acknowledge the contributions that the Eligible Participants, including (i) any full-time or part-time employees, executives or officers of the Company or any of its subsidiaries; (ii) any Directors (including non-executive Directors and independent non-executive Directors) of the Company or any of its subsidiaries; and (iii) any advisers, consultants, suppliers, customers and agents to the Company or any of its subsidiaries, had or may have made to the Group. The Share Option Scheme shall be valid and effective for a period of ten years from the date of its adoption.

The maximum number of unexercised share options currently permitted to be granted under the Share Option Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Share Option Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to Directors, chief executives, substantial shareholders or any of their respective associates are subject to approval by the independent non-executive directors (excluding the independent non-executive directors who are the grantees of the options). In addition, any grant of share options to substantial shareholders or independent non-executive directors or to any of their respective associates, in excess of 0.1% of the shares of the Company in issue on the date of offer with an aggregate value (based on the closing price of the Company's shares quoted on the Hong Kong Stock Exchange (the “HKSE”) at the date of grant) in excess of HK\$5 million made within any 12-month period from the date of grant (inclusive) would be subject to shareholders' approval in a general meeting.

The offer of a grant of share options under the Share Option Scheme may be accepted within 21 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee.

26. SHARE OPTION SCHEMES (continued)

The exercise price of share options is determinable by the board of Directors, but may not be less than the highest of (i) the nominal value of shares of the Company; (ii) the average closing price of the Company's shares for the five trading days immediately preceding the date of grant of the share options; and (iii) the HKSE closing price of the Company's shares on the date of grant of the share options.

On 4 January 2018 and 30 October 2018, the Company granted options to subscribe for 133,333,400 and 229,300,000 ordinary shares of HK\$0.01 each under the Share Option Scheme to eligible Directors, employees and other eligible participants, the exercise period of the share options granted is determinable by the Directors and commence effectively from the date of offer of the share options without vesting period. The exercise price of the share options granted is HK\$0.854 and HK\$0.399 each respectively.

The following share options were outstanding during the year:

	<i>Notes</i>	Weighted average exercise price HK\$ per share	Number of options
As at 1 January 2019 (Audited)	(a)	0.566	362,633,400
Exercised during the year	(b)	0.399	(58,250,000)
Expired during the year	(c)	0.854	(44,000,000)
As at 31 December 2019 (Unaudited)		0.555	<u>260,383,400</u>

Notes:

- (a) The share options outstanding as at 1 January 2019 represented share options granted by the Company on 4 January and 30 October 2018 under the Share Option Scheme for a total of 133,333,400 and 229,300,000 shares with a nominal value of HK\$0.01 each at exercise prices of HK\$0.854 and HK\$0.399, respectively.
- (b) The weighted average share price at the date of exercise for share options exercised during the year was HK\$0.399 per share (2018: No share options were exercised).
- (c) 44,000,000 share options expired without being exercised in 2019 (2018: 1,066,669 share options expired without being exercised on 30 June 2018).

26. SHARE OPTION SCHEMES (continued)

The exercise prices and exercise periods of the share options outstanding as at the end of the reporting period are as follows:

2019 (Unaudited):

Number of options	Exercise price per share HK\$	Exercise period
89,333,400	0.854	From 4 January 2018 to 3 January 2020
171,050,000	0.399	From 30 October 2018 to 29 October 2020
<u>260,383,400</u>		

2018 (Audited):

Number of options	Exercise price per share HK\$	Exercise period
133,333,400	0.854	From 4 January 2018 to 3 January 2020
229,300,000	0.399	From 30 October 2018 to 29 October 2020
<u>362,633,400</u>		

The Group had 260,383,400 share options exercisable as at 31 December 2019 (31 December 2018: 362,633,400). No share option expense was recognised during the year ended 31 December 2019 (2018: a share option expense of HK\$42,336,000, equivalent to approximately RMB36,219,000 recognised).

The fair values of equity-settled share options granted were estimated and valued by independent professional valuers as at the dates of grant, using the binomial model, taking into account the terms and conditions upon which the options were granted. The following table lists the major inputs to the model used:

	Equity-settled share options granted on	
	4 January 2018	30 October 2018
Expected volatility (%)	54.41	53.97
Risk-free interest rate (%)	1.36	2.15

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

No other feature of the options granted was incorporated into the measurement of fair value.

At the end of the reporting period, the Company had 260,383,400 share options outstanding under the Share Option Scheme. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 260,383,400 additional ordinary shares of the Company and additional share capital of HK\$2,604,000 and share premium of HK\$141,936,000 (before issue expenses).

At the date of approval of these financial statements, the Company had 171,050,000 share options outstanding under the Share Option Scheme, which represented approximately 5.4% of the Company's shares in issue as at that date.

27. ACQUISITION OF SUBSIDIARIES

For the year ended 31 December 2019 (Unaudited)

(a) Acquisition of Genpex

On 20 June 2019, the Group acquired 100% equity interests in Genpex Investment Limited (“Genpex”) from Mr. Zhang Yuan, an independent individual and the then sole owner of Genpex, which is principally engaged in property investment. (b) Acquisition of Good Benefit

On 29 August 2019, the Group acquired 100% equity interests in Good Benefit Holdings Limited (“Good Benefit”) from Mr. Zhou Cheng Jiu, an independent individual and the then sole owner of Good Benefit. Good Benefit and its subsidiaries (together, “Good Benefit Group”) are principally engaged in property investment. The purchase consideration was satisfied by of the allotment and issue of 164,156,830 ordinary shares by the Company at the issued price of HK\$0.81 per share, amounting to HK\$132,967,000 (equivalent to approximately RMB121,000,000) in aggregate.

Particulars of the acquisition of the entire equity interests in Good Benefit were set out in the Company’s announcements dated 3 June 2019, 13 June 2019 and 29 August 2019.

The acquisitions of Genpex and Good Benefit Group have been accounted for as asset acquisitions, as the acquisitions did not have all required attributes of a business. The identified assets as at the respective dates of acquisitions are as follows:

2019

	Genpex RMB'000	Good Benefit Group RMB'000	Total RMB'000
Investment properties (<i>note 12</i>)	85,064	121,236	206,300

27. ACQUISITION OF SUBSIDIARIES (continued)

For the year ended 31 December 2018 (Audited)

Acquisition of Vigoroso Holdings

On 19 December 2018, the Group acquired 100% equity interests in Vigoroso Holdings Limited (“Vigoroso Holdings”) from Mr. Chen Yuhong, an independent individual and the then sole owner of Vigoroso Holdings. Vigoroso Holdings indirectly owns 80% equity interests in Lotus Materials, which holds the mining permit to a marble mine located at Shaxi County, Lichuan, Hubei Province, with an area of approximately 1.4565 square kilometres, which will be expired on 22 August 2023. Vigoroso Holdings and its subsidiaries (together, “Vigoroso Group”) are principally engaged in mining exploration of marble products.

The purchase consideration was in the form of cash, amounted to RMB11,432,000 and the allotment and issue of 458,666,666 ordinary shares by the Company at HK\$0.305 per share at the acquisition date, amounting to HK\$139,893,000 (equivalent to approximately RMB123,182,000) in aggregate. The acquisition was completed on 19 December 2018.

Particulars of the acquisition of the entire equity interests in Vigoroso Holdings were set out in the Company’s announcements dated 29 August 2018 and 19 December 2018.

The acquisition of Vigoroso Group has been accounted for as an asset acquisition, as the acquisition did not have all required attributes of a business. The identified assets and liabilities as at the respective date of acquisition are as follows:

2018

	<i>RMB’000</i>
Property, plant and equipment (<i>note 11</i>)	2,058

28. BUSINESS COMBINATION

On 23 August 2019, the Group then acquired 100% interest in Kalong Holdings Limited (“Kalong Holdings”) from Mrs. Jiang Meiqin, an independent individual and then the owner of Kalong Holdings. Kalong Holdings indirectly owns 100% equity interests in Jiangxi Keyue, which is principally engaged in the business of processing and sales of calcium carbonate and other mineral products. The acquisition was made as part of the Group’s strategy to extend its industrial chain, expand its business portfolio with a view to enhance its financial performance. The purchase consideration for the acquisition was satisfied by the allotment and issuance of 63,131,313 consideration shares at the issue price of HK\$0.81 by the Company. The acquisition has been completed on 23 August 2019.

Particulars of the acquisition of the entire equity interests in Kalong Holdings were set out in the Company’s announcements dated 2 July 2019 and 23 August 2019.

The fair values of the identifiable assets and liabilities of Kalong Holdings and its subsidiaries (together, “Kalong Holdings Group”) as at the date of acquisition were as follows:

	Fair value recognised on acquisition <i>RMB’000</i> (Unaudited)
Cash and bank balances	205
Restricted deposits	3,506
Trade receivables	19,280

An analysis of the cash flow in respect of the business combination is as follows:

	Fair value recognised on acquisition <i>RMB'000</i> (Unaudited)
Cash and cash equivalents acquired	205
Net cash inflow from the acquisition of subsidiaries	205

Since the acquisition, Kalong Holdings Group contributed RMB13,107,000 to the Group's revenue and recorded RMB1,107,000 profit in the consolidated results for the year ended 31 December 2019.

Had the combination taken place at the beginning of the year, the revenue and the profit of the Group for the year ended 31 December 2019 would have been increased by RMB39,321,000 and RMB3,320,000 respectively.

29. DISPOSAL OF SUBSIDIARIES

(a) Disposal of Evoke Investment Limited

During 2019, the Group disposed of the 100% equity interests in Evoke Investment Limited and its subsidiaries (collectively referred to as the "Disposed Subsidiaries") to an independent individual for an aggregate cash consideration of RMB3,800,000. The Disposed Subsidiaries were primarily engaged in mining exploration of marble products.

Net assets disposed of:

cash consideration receivable (<i>note 19</i>)	<u>(32,793)</u>
Net outflow of restricted deposits in respect of the disposal of the subsidiary	<u><u>(16)</u></u>

30. CONTINGENT LIABILITIES

The Group has assessed and made necessary provision for any probable outflow of economic benefits in relation to contingent liabilities at the reporting date in accordance with its accounting policies.

A subsidiary of the Group is currently a defendant in a lawsuit alleging that the subsidiary breached and repudiated a contract to purchase a residential property.

The Directors, based on the opinion from the Group's external PRC legal counsel, believe that the subsidiary has complete and valid defences against the allegations or that the subsidiary has been indemnified against the lawsuits and, accordingly, has not provided for any claim arising from these unsettled litigations. The contingencies will not have material impact on financial position and operations of the Group.

31. COMMITMENTS

The Group had the following capital commitments at the end of the reporting period:

	2019 <i>RMB'000</i> (Unaudited)	2018 <i>RMB'000</i> (Audited)
Contracted, but not provided for:

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Marble and Mining Business

Our new marble processing plant (“marble processing plant”) in Jiangxi Province, the PRC was designed to house a total of eighteen large-sized stone pull saw machines. The plant will become the largest marble processing facility in the province. As at 31 December 2019, twelve of these stone pull saw machines together with other slabs grinding and polishing machines have been installed. Some of these machines had finished their test-run adjustments and had been put into production. Products produced from the new stone saw machines and slabs grinding machines installed were proved to be of top qualities and with high precision. Besides the Jiangxi plant, the Group has been establishing another new processing facility in Guangxi Province, the PRC to cater for the marble processing demand in Guangxi and the nearby region. During the year ended 31 December 2019, all the twelve large-sized stone pull saw machines had been delivered to the Guangxi facility and the related installation work was ongoing. The new processing facilities in the two regions not only serve the regional needs with different types of marbles, they can also achieve an economy of scale from centralised technical support and maintenance procurement costs.

In the past, the Group used third-party contractors for marble slab processing from marble blocks extracted from our own mines with quality control over slab processing by our own experienced quality control teams. With the establishment of the processing facilities and our quality control teams, our business model will be more flexible. Apart from the marble blocks from our own mines, we will be more selective in sourcing different types and better-quality marble blocks from other mine operators for processing into slabs to enrich our product lines. In the meantime, marble blocks from our own mines which were identified as unsuitable for own processing were sold directly in the market in order to ensure that the slabs products produced from our own processing plants are of top quality in long run.

The aggregate revenue from sales of marble products dropped from RMB86.1 million in 2018 to RMB77.8 million in 2019 in which marble block sales soared from RMB14.8 million last year to RMB44.3 million this year as more marble blocks unsuitable for own processing were sold. On the other hand, the sales of marble slabs dropped from last year’s RMB71.3 million to RMB33.4 million this year as our own processing facilities were yet to operate in full capacity resulting in a drop in sales volume from approximately 454,000 sq. m to 278,000 sq. m. not to mention the negative market sentiment under the weakest annual GDP growth rate of 6.1% in China since 1990 was recorded.

Our mine excavation activity remained sluggish. The mining rights over Yongfeng Mine, the Group's largest mine located in Jiangxi Province, has been renewed from time to time with different length of period and can be extended to 5 February 2043 according to applicable laws and regulations. The current certificate of mining rights shall be expired on 5 June 2020. The Group has been actively negotiating with the local government authority in order to fulfill all the conditions in order to obtain a certificate of mining rights for a longer period of 5 years or beyond to facilitate the longer-term business planning. The major condition for issuing such certificate is that the mine's relevant environmental protection constructions need to reach a certain level under the government authority's requirements. The Group has commissioned contractors to improve the mine's relevant layouts and facilities in order to meet such requirements. Mining activities in the Yongfeng Mine were halted during the year in order to speed up the environmental protection construction work. Based on the latest assessment, the Group expects that most of the work shall be completed by mid-2020 and wishes to renew the certificate of mining rights for a longer period thereafter.

Since 2018, following President Xi Jinping's speech on the National Ecological and Environmental Protection Conference, the ecological civilisation construction and promotion of environmental protection has been a major goal the PRC government is pursuing. The Green Mine concept was evolved and a detailed formal standard in relation to the Green Mine construction, 「砂石行業綠色礦山建設規範」 was issued by the PRC Ministry of Natural Resources. Different local government authorities have further raised their consciousness on the ecological and environmental perspectives. Managements of the Group's other different mines have been working on the Green Mine governing plans and the related works in order to fulfill the required standard before renewed mining certificates can be officially issued or large-scale mining activities can be commenced.

During the year, the Group acquired a group of companies ("Kalong Group") which is principally engaged in the manufacturing and sale of calcium carbonate for industrial used. The products of Kalong Group are mainly produced from marble residues and hence is one of the downstream business of our marble business. It has three main series of calcium carbonate products which contributed a total of approximately RMB13.1 million to the Group's revenue subsequent to its becoming a member of the Group and also recorded a post-acquisition profit of approximately RMB1.1 million. The acquisition further expanded the Group's existing business segment by widening the spectrum from stone mining to the stone application.

Commodities Trading Business

Prior to the signing of the phase one China-US trade war deal in January 2020, the global trade market was shrouded in an atmosphere of uncertainty especially the mercurial negotiation between the world's two largest national economies. During the year, the Group had taken an extra cautious approach in carrying out any commodities trading transactions in view of such market condition. Consequently, the Group's annual commodity trading transactions for the year was reduced as compared to those for 2018 and recorded an aggregate revenue of approximately RMB182.9 million for the year as compared to that of approximately RMB449.4 million in 2018.

Warehousing Logistics Business

The Group had been engaged in the warehousing and logistics business since 2017 through its subsidiary, Shiny Goal Holdings Limited and its subsidiaries (“Shiny Goal Group”). The segment results were not encouraging since its kickoff. As customers of Shiny Goal Group are mainly local importers of raw materials and manufacturing companies for production of goods for export, the slowdown of the import/export business activities has a direct impact to the demand of the logistics services geographically where these customers situated. The business environment of this segment further deteriorated in the China-US trade war time these two years. In late December 2019, after reviewing the segment’s business environment, the Group decided to abandon this business segment by disposal of the Shiny Goal Group. The Group has since then been actively soliciting potential buyers and the feedbacks are positive. The disposal when realised would not have significant financial impact to the Group whereas the Group can better utilise the resources to its other business segments.

Corporate Development and Major Acquisitions

In view of the existing uncertainty surrounding the business environments of the Group’s existing business segments, the Group has been exploring various opportunities for investment projects in order to enhance its shareholders’ value.

In mid-2019, the Group assessed the condition of the PRC property market and considered that the prospect of the market is positive in long-run. Accordingly, it entered into certain memoranda of understanding for the acquisitions of several properties. The properties are situated in luxury locations in certain core residential districts in Shanghai which the Group considered such acquisitions are valuable investment opportunities for it to participate in the PRC property market which would enable the Group to benefit from the potential long-term appreciation of the properties in the PRC property market. The Group intends to lease out the properties which will provide future stable income for the Group.

Among the properties, three properties were successfully acquired in 2019 at an aggregate consideration of approximately RMB206 million which was satisfied by the issue of an aggregate of approximately 283.4 million of new shares. Details of the acquisitions are set out in the Company’s announcements dated 10 June 2019, 13 June 2019, 20 June 2019 and 29 August 2019 respectively.

FINANCIAL REVIEW

REVENUE

In 2019, the Group recorded an operating revenue of approximately RMB274.5 million (2018: approximately RMB536.8 million) from both of its continuing and discontinued operations, representing a decrease of approximately RMB262.3 million (or 48.9%) compared to that of 2018, mainly due to revenue generated from commodity trading business decreased by approximately RMB266.6 million as a result of the scale of trading transaction decreased. Revenue from continuing operations amounted to approximately RMB273.7 million, representing a decrease of approximately RMB261.8 million (or 48.9%) compared to that of 2018.

(a) Sales by Product Categories

The following table sets out the breakdown of the Group's sales and the percentage of sales by product categories:

	2019			2018		
	RMB'000	Approximate percentage %	Gross profit/ (loss) margin (%)	RMB'000	Approximate percentage %	Gross profit/ (loss) margin (%)
Marble blocks	44,343	16.2	76.0	14,806	2.8	73.0
One-side-polished Slabs	29,767	10.8	40.0	61,293	11.4	35.0
Cut-to-size slabs	3,648	1.3	8.0	10,017	1.9	13.3
Calcium carbonate products	13,107	4.8	35.0	–	–	–
Commodity Trading	182,858	66.6	0.6	449,435	83.7	0.9
Revenue from continuing operations	273,723	99.7	18.8	535,551	99.8	7
Logistics	761	0.3	(377.0)	1,241	0.2	(190.2)

Total	274,484	100.0	17.7	536,792	100.0	6.6

(b) Sales Volume and Average Selling Price

The following table sets out the sales volumes and average selling prices of marble blocks, one-side-polished slab, cut-to-size slab and calcium carbonate products:

Sales volume	2019	2018
Marble blocks (m ³)	14,040	4,609
One-side-polished slabs (m ²)	242,040	414,597
Cut-to-size slabs (m ²)	35,519	39,094
Calcium carbonate products (Ton)	36,305	–
Average selling price		
Marble blocks (RMB/m ³)	3,158	3,212
One-side-polished slabs (RMB/m ²)	123	148
Cut-to-size slabs (RMB/m ²)	103	256
Calcium carbonate products (RMB/Ton)	361	–

For the year ended 31 December 2019, the unit selling price of marble blocks decreased by approximately 1.7% as compared to that of 2018, mainly due to lower unit selling price of marble blocks sold to a major customer in 2019. The average selling price of One-side-polished slabs during the year decreased by approximately 16.9% compared with that of 2018, which was mainly due to the decrease in the proportion of high-priced One-side-polished slabs (Century Platinum Slabs, Sapphire Slabs and so on) being sold.

The average selling price of cut-to-size slabs during the year decreased by approximately 59.8% compared with that of 2018, mainly due to the reallocation of the Group's warehouse from Shuitou to Jiangxi, where a new marble processing plant combining the functions of processing and warehousing have been put into use at the end of 2019, motivating ArtGo Stone to clear up long aged Cut-to-size slabs in Shuitou at the average selling price of RMB103 m² through sales promotion which resulted in the decrease in the overall average selling price.

The average selling price of Calcium carbonate products was RMB361 per ton for the year ended 31 December 2019. Calcium carbonate and other mineral products was our recently-developed product line in this year, manufactured by our newly-acquired Kalong Holdings Group in Jiangxi. These products are widely used in industries such as rubber, plastic, papermaking, chemical building materials, inks, and so on.

Cost of Sales

For the year ended 31 December 2019, the Group's cost of sales amounted to approximately RMB222.3 million from continuing operations, which mainly consisted of processing costs, marble blocks mining costs, transportation costs and the purchase costs for commodities trading.

Processing Costs

Processing costs of the Group represented the processing fees paid to processors for processing marble blocks into one-side-polished slabs and further polishing one-side-polished slabs into cut-to-size slabs. The processing fees of one-side-polished slabs decreased by approximately RMB4.2 million, representing a decrease of approximately 88.4%, which was mainly due to the drop in quantity of both one-side-polished slabs and cut-to-size slabs being processed. The use of our own processing facilities in the year was another factor led to reduced processing fees to outside processors.

Marble Blocks mining costs

In 2019, marble blocks mining costs of the Group mainly included mining labour costs, materials consumption, fuel, power, depreciation of production equipment and amortisation of mining rights. The marble blocks mining cost per unit decreased nearly by 15.0% compared to that of 2018, mainly due to the significant decrease in mining labour costs.

Transportation Costs

Transportation costs included: (i) long-distance transportation fees for transporting marble blocks from the blocks yard to the processing centre; and (ii) short-distance transportation fees for transporting marble blocks to the transit yard and transportation between the warehouse and processing centre. Transportation costs accounted for approximately 0.2% and 0.3% of the production costs for 2019 and 2018, respectively.

GROSS PROFIT AND GROSS PROFIT MARGIN

During 2019, the Group realised a gross profit from continuing operations amounted to approximately RMB51.4 million, representing an increase by approximately RMB13.8 million as compared to that of 2018. The gross profit margin in 2019 was approximately 18.8%, while the gross profit margin in 2018 was approximately 7.0%.

OTHER INCOME AND GAINS

Other income and gains mainly included refund of value-added tax, gain on disposal of right-of-use assets, government grants, interest income from bank deposits and rental income derived from five commercial units of the Group. Compared with 2018, other income and gains increased by RMB1.9 million due to refund of value-added tax amounted to RMB0.9 million, and government grants amounted to approximately RMB0.6 million.

OTHER EXPENSES

Other expenses from continuing operations mainly included penalties and rental expenses derived from five commercial units of the Group. In 2019, such expenses amounted to approximately RMB8.0 million.

SELLING AND DISTRIBUTION EXPENSES

Selling and distribution expenses mainly consisted of salaries of sales and distribution staff, transportation costs and advertising costs. Selling and distribution expenses from continuing operations decreased by approximately RMB1.1 million, from approximately RMB5.4 million for the year ended 31 December 2018 to approximately RMB4.3 million for the year, which was due to the restructuring of the sales department of Xiamen Huijin Stone as part of the Group's strategy adjustment during the years.

ADMINISTRATIVE EXPENSES

Administrative expenses mainly consisted of equity-settled share option expenses, salaries of administrative staff, rental fee, consultancy fees and depreciation expense. Administrative expenses from continuing operations decreased by approximately RMB30.2 million, from approximately RMB88.2 million for the year ended 31 December 2018 to approximately RMB58.0 million for the year. The decrease in administrative expenses was mainly due to the decrease in equity-settled share option expenses.

FINANCE COSTS

Finance costs mainly included interests on bank loans, interest on deferred payment from the acquisition of mining rights and related interests of rehabilitation. Finance costs for the year ended 31 December 2019 from continuing operations amounted to approximately RMB45.3 million and increased by approximately RMB5.4 million as compared to that of 2018. The increase was mainly attributable to the increase in interests on bank loans and other borrowing.

INCOME TAX EXPENSE

Income tax expense from continuing operations increased by approximately RMB10.1 million from approximately RMB1.3 million for the year ended 31 December 2018 to approximately RMB11.4 million for the year. The increase was mainly due to less taxable loss from the Group's subsidiaries in Mainland China could have been utilised during the year.

LOSS AND TOTAL COMPREHENSIVE LOSS ATTRIBUTABLE TO OWNERS OF THE COMPANY

The net loss from continuing operations amounted to approximately RMB86.7 million (2018: approximately RMB645.2 million) and the net loss from a discontinued operation amounted to approximately RMB4.1 million (2018: approximately RMB4.0 million). The decreased net loss was attributable to the decrease in impairment losses on both intangible asset and goodwill, and non-existence of share option expense in the year.

INVENTORIES

The Group's inventories decreased by RMB24.8 million from approximately RMB54.0 million as at 31 December 2018 to approximately RMB29.2 million as at 31 December 2019. It was primarily due to the fact that the Group did not have exploration, development and production activities for the Mines during the year.

TRADE RECEIVABLES AND TURNOVER DAYS

The Group's trade receivables and bills receivable from continuing operations decreased from approximately RMB276.7 million as at 31 December 2018 to approximately RMB172.9 million as at 31 December 2019. The decrease was mainly due to the business shrinkage in commodity trading. In spite of this, the turnover days of trade receivable increased from 238 in 2018 to 299 in 2019. The increase in the turnover days was primarily owing to the tightening of financial market conditions, the financial difficulties experienced by downstream enterprises were aggravated and hence the payment to their suppliers was decelerated. Therefore, the Group's certain distributor customers delayed repayment to the Group accordingly as their respective operating cash inflow from the downstream entities were decelerated.

TRADE AND BILLS PAYABLES

The Group's trade and bills payables from continuing operations decreased by approximately RMB24.9 million from approximately RMB82.6 million as at 31 December 2018 to approximately RMB57.7 million as at 31 December 2019. The decrease was in line with the declines in revenue and purchase.

NET CURRENT ASSETS

Net current assets of the Group increased from approximately RMB19.6 million as at 31 December 2018 by 325.0% to approximately RMB83.3 million as at 31 December 2019, which was primarily due to decrease in trade and bills payables with the decrease in sales in respect of trading of commodity.

CURRENT RATIO

The current ratio, being current assets over current liabilities, was 1.2 as at 31 December 2019 (31 December 2018: 1.0), which remained stable.

BORROWINGS

The Group generally finances its operations with internally generated cash flows, other borrowings and banking credit facilities. As at 31 December 2019, the Group had total bank loans and other borrowings of approximately RMB477.8 million (31 December 2018: approximately RMB407.6 million).

GEARING RATIO

The Group's gearing ratio equals to its net debt (total debts net of cash and bank balances) divided by total equity. Total debt is defined as interest-bearing bank and other loans and it excludes liabilities incurred for working capital purposes. As at 31 December 2019, the gearing ratio was 21.5% (2018: 18.7%).

CAPITAL EXPENDITURE

The Group's ability to maintain and increase its sales and profits depends upon continued capital spending. Capital expenditures are used to purchase mining rights, land, property, plant and equipment. In 2019, the Group's expenditure for: (i) purchase of investment properties aggregated to approximately RMB206.3 million; (ii) acquisition of Kalong Holdings and its subsidiaries' property, plant and equipment aggregated to approximately RMB50.1 million; and (iii) acquisition of Right-of-use assets aggregated to approximately RMB4.8 million.

FOREIGN EXCHANGE EXPOSURE

The Group's businesses are located in Mainland China and most of the transactions were denominated in RMB, except for an amount due to the certain cash at banks that is denominated in HK\$ and US\$. As such, the Group has limited exposure to any significant foreign currency exchange risks.

The Board of Directors does not expect any material impact on the Group's operations caused by any foreign currency fluctuations. No financial instruments were employed by the Group for hedging purpose during the year.

HUMAN RESOURCES AND REMUNERATION POLICY

The emolument policy of the employees of the Group is determined by the management on the basis of their contribution, qualifications and competence.

As at 31 December 2019, the total number of full-time employees of the Group was 205 (31 December 2018: 122). Employee costs (including the Directors' remunerations) totally amounted to approximately RMB15.5 million for 2019 (2018: approximately RMB53.4 million). During the year, the Group acquired the business of Kalong Group resulting in a substantial increase in the overall headcounts. Meanwhile, taking into account the strategic goal of the Group, operating results, efforts and contributions made by each of our executive Directors, senior management and employees, and for the purposes of recognising their value, motivating for better performance and skills, maintaining the Company's fast-growing development and achieving its long and short-term goals, the remunerations were in line with the market performance and their qualifications and abilities, and made adjustment according to varied percentage. The Group determined the remuneration packages of all employees including the Directors with reference to individual performance and current market salary scale.

Pursuant to the relevant labour rules and regulations in the PRC, the Group participates in a defined central pension scheme managed by the relevant local government authorities in respective regions in the PRC where the Group is required to contribute a certain percentage of the relevant part of the payroll of these employees to the central pension scheme.

The local government authorities are responsible for the entire pension obligations payable to the retired employees and the Group has no obligation for the payment of retirement benefits beyond the annual contributions. In 2019, the contributions of approximately RMB1.33 million (2018: approximately RMB1.25 million) were charged to the profit and loss account as they became payable in accordance with the rules of the central pension scheme.

PLEDGE OF ASSETS

(e) Disposal of ArtGo (Jiangsu) Technique Industrial Co., Ltd

During the year, the Group disposed of 100% equity interests in ArtGo Jiangsu to an independent individual for an aggregate cash considerations of RMB32,793,000. ArtGo Jiangsu was primarily engaged in wholesale of decorating materials and chemical products.

OUTLOOK

Notwithstanding the silver linings arising from the positive progress of the China-US trade war were around the corner when approaching the end of 2019, the sudden outbreak of COVID-19 wiped out the hope of the business sector. It created a huge turmoil and struck the global economy severely. Although China is the first country being affected by COVID-19, the determination and swift reaction of the PRC government by the implementation of various emergency measures are proved to be effective and impressive. The Group has confident that among the countries affected, China will be the first country to have its economy be recovered from the aftermath of COVID-19. The Group believes that the PRC government will continue introducing additional policies and mitigation measures to stimulate the internal demand and promote real estate and infrastructure investments in PRC in order to counter the negative effect created by the previous trade war and the aftermath of COVID-19. We believe the Group’s business will be benefited from the boosted up internal demand. Having said that, given that the effect of COVID-19 is still on-going, it is premature to assess its negative impact to the Group. The Group will continue its existing business and adjust its strategy from time to time in order to adapt to the changing financial environment. It will carry out its business plan and make its investment decisions cautiously based on the changing market situation and the conditions of the Group.

SUBSTANTIAL INVESTMENT

Save for those disclosed in the paragraph headed “Major Acquisition and Disposal of Assets and Merger”, the Group had no significant investments or material acquisitions or disposal of subsidiaries and associated companies during the year.

PRE-EMPTION RIGHT

Pursuant to the constitution of the Company and the laws of the Cayman Islands (the place where the Company was incorporated), no provision in relation to pre-emption rights shall apply to the Company.

EVENTS AFTER THE REPORTING PERIOD

Since January 2020, the outbreak of Novel Coronavirus ("COVID-19") had significant impact on the business operation in the PRC. As the Group's business operations are located in different provinces in PRC including Hubei Province where COVID-19 was firstly detected, there were disruptions to the Group's operations during the period when emergency public health measures and various actions were in place to prevent the spread of the COVID-19, including the restriction on the workplace and homeplace quarantine when employees returned to work from their home towns. Given that COVID-19 was subsequently striking other countries of the world which led to huge turmoil to the world economy, there might be impact to the Group as well. With such dynamic nature of COVID-19, it is not practicable to provide a reasonable estimate over the financial impact on the Group at the date of this announcement.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES

Neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company's listed securities during the year ended 31 December 2019.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Listing Rules as its own code of conduct for dealing in securities of the Company by the Directors. Specific enquiry has been made of all the Directors and the Directors have confirmed that they have complied with the required standards of dealings as set out in the Model Code throughout the year ended 31 December 2019.

DIVIDEND

The Board does not recommend payment of final dividend for the year ended 31 December 2019 (2018: Nil).

AUDIT COMMITTEE

The Company has established an audit committee (the "Audit Committee") which comprises three independent non-executive Directors, namely, Ms. LUNG Yuet Kwan (as chairman), Ms. ZHANG Xiaohan and Mr. HUI Yat On pursuant to the requirements under Rule 3.21 of the Listing Rules.

The Audit Committee has, in conjunction with the management of the Company, reviewed the accounting principles and practices adopted by the Group and discussed internal controls and financial reporting matters, and reviewed this unaudited results announcement as well as the unaudited annual results for the year ended 31 December 2019.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Company is committed to achieving high standards of corporate governance to safeguard the interests of its Shareholders and to enhance the corporate value, accountability and transparency of the Company.

The Company has complied with the code provisions as set out in the CG Code contained in Appendix 14 to the Listing Rules throughout the year ended 31 December 2019, except for the following deviation.

Under code provision A.2.1 of the CG Code, the roles of chairman and chief executive should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and the chief executive should be clearly established and set out in writing.

From 1 December 2016, Mr. GU Weiwen has been re-designated and appointed as vice chairman of the Board, and Ms. WU Jing has been appointed as the Acting Chief Executive Officer (details are set out in the Company's announcement dated 1 December 2016). Upon the appointment of Ms. Wu as the Acting Chief Executive Officer, Ms. Wu assumes both the roles as the Chairman and the chief executive officer of the Company in deviation from code provision A.2.1 of the CG Code. Despite so, in view of the present rapid development of the Group and further expansion of its downstream business, the Board needs the experience of Mr. Gu in doing his Vice Chairman work and the Board believes that Mr. Gu and Ms. Wu's extensive experience and knowledge, together with the support of the management shall strengthen the solid and consistent leadership and thereby vesting the roles of both Chairman and the Acting Chief Executive Officer in Ms. Wu allows efficient business planning and decision which is in the best interest of the business development of the Group.

The Company will periodically review and improve its corporate governance practices with reference to the latest development of corporate governance operations.

REVIEW OF UNAUDITED ANNUAL RESULTS

The auditing process for the annual results for the year ended 31 December 2019 has not been completed due to the COVID-19 coronavirus outbreak. Due to the transportation control implemented and the restrictions in resuming work as a result of the outbreak of COVID-19, the auditors have not been able to finish all the required works before the latest timeline for this announcement. In particular, certain audit works in relation to one of the Group's subsidiary, which is located in Lichuan City, Hubei Province have not been completed. In addition, certain audit requests for information from independent third parties including bank confirmations and other audit conformations have not been received by the auditors. It is expected that the figures, including the bank balances, bank borrowings, impairment of intangible assets and of property, plant and equipment and any other figures and areas which the auditors may consider necessary for further review and adjustments will be subject to further audit works. As such, the unaudited annual results contained in this announcement have not been agreed with the Company's auditors as required under Rule 13.49(2) of the Listing Rules. An announcement relating to the audited results for the year ended 31 December 2019 will be made when the auditing process has been completed by the Company's auditors in accordance with Hong Kong Standards on Auditing issued by Hong Kong Institute of Certified Public Accountants.

PUBLICATION OF FURTHER ANNOUNCEMENT(S), FINAL RESULTS ANNOUNCEMENT AND 2019 ANNUAL REPORT

This unaudited results announcement is published on the websites of the Stock Exchange (www.hkexnews.hk) and the Company (www.artgo.cn). Following the completion of the auditing process, the Company will issue further announcement(s) in relation to the audited results of the Group for the year ended 31 December 2019 as agreed by the Company's auditors and the accounting adjustment or material differences (if any) as compared with the unaudited annual results contained herein. In addition, the Company will issue further announcement(s) as and when necessary if there are other material development in the completion of the auditing process. The Company expects the auditing process will be completed on or before 30 April 2020. The annual report of the Company for the year ended 31 December 2019 will be dispatched to the Shareholders and published on the websites of the Stock Exchange and the Company in due course and, in any event, not later than Friday, 15 May 2020.

The financial information contained herein in respect of the annual results of the Group for the year ended 31 December 2019 have not been audited and have not been agreed with the auditors, and is subject to possible adjustments. Shareholders and potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.
